

The Federal Communications Commission

Dear The Federal Communications Commission,

We do not want to pay more for my telephone service! We urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. WE are concerned that this proposal could make our current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

As a senior citizens, we use our wireless phones for safety, security and convenience. WE buy only what we can afford to use on a 60 day basis. we are careful as to how we use our phones. we don't want to lose these benefits so that big businesses can pay less than their fair share. we urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Rocklin and Hillary Perrott
